

Galaxy Forum 2010 Hawai'i - Hilo

"21st Century Education – Get to Know Our Place in the Universe"

An exploratory forum to promote Galaxy Education in the 21st Century

Sunday, May 23, 2010, 10:30am - 12:30

at 'Imiloa Astronomy Center

Free Admission!

We welcome all educators and education advocates, science teachers, students, cultural practitioners, amateur and professional astronomers and the general public.

Featured Speaker:

Dr. Kumiko Usuda, Outreach Education Scientist, Subaru Telescope:
"Teaching Galaxy Education in Hawaii's Classrooms"

Dr. Usuda is a dynamic and accomplished Galaxy educator with much experience in Hawaii's classrooms teaching students how to build their own scale models of the Milky Way.

Kumiko has presented at four Galaxy Forums. She will be speaking about how to integrate Galaxy awareness in preschool, elementary, secondary and college classroom curriculum.

Shawn Laatsch: 'Imiloa Astronomy Center: *Planetarium Galaxy Show*

Peter Michaud: Gemini Observatory
Astronomy and Galaxy Research

Ali'i Kimo Pihana & Koa Rice:
"Hawaiian Culture and Galaxy Education"

ILOA: *"International Lunar Observatory Galaxy First Light Imaging"*

Includes a Panel Discussion on advancing and enhancing general science education in Hawai'i

RSVP to ILOA by Monday May 17 at 885-3474 or info@iloa.org
